

Student Absence Reporting

A guide for students to report current periods of absence online

Overview

You are required to attend all timetabled events as a compulsory part of your course. If you find that you are unable to attend, you must inform the University.

To make this process easier for you, an **online absence reporting system** is available from the Portal:

- you should report your absence on the day it starts. If your absence continues you must return to the online system and extend your current absence record each day, as necessary;
- if you know you will be away for a specific period, you may confirm this on the day it starts and amend if the period of absence turns out to be longer or shorter. The attendance register for any timetabled teaching events during the period of reported absence will then be automatically updated to show that you are not expecting to attend; this also informs the lecturer/module organiser that you will not be present;
- if you are an international student and hold a **Tier 4 Visa**, it is important for the University to check that you are attending regularly as this is essential to ensuring that your Visa remains valid;
- if you are registered on a **course that leads to registration with a professional body** e.g. the Nursing and Midwifery Council, your School may have specific procedures for you to follow if you are absent, particularly while you are on placements. You must always check with your Hub to determine whether your course has any specific requirements. You must also check the arrangements for catching up with missed work.

We ask you to report your absences so that your School could support you if you are encountering difficulties with your studies. Your School may also refer to your record of absence when writing any future references for you and, if

there are no valid reasons for your absence, it is possible that disciplinary action may be taken under the University's [General Regulations](#).

The information concerning your record of absence will be held by the University for up to a year after your graduation/completion of your studies. Thereafter, the information will be confidentially destroyed in accordance with the University's record retention procedures.

If you report your absence, for any reason, it does not exempt you from submitting coursework by the due date:

If you use the online facility to report your absence and you require an extension to the deadline for submitting your coursework, you must still apply for an extension or submit a self-certificate through e:Vision. More information on how to do this is [available](#). You must not assume that, by reporting your absence, you will have an automatic extension.

Missing Exams/Course Tests/Presentations due to absence:

If your absence has caused you to miss an exam, course test, assessed presentation or practical assignment which contributes to your module mark you should report the absence via the Portal on the day of the assessment or as soon as possible thereafter. If you are absent for medical reasons you should visit your GP **on the day** of the assessment to get a medical certificate. If you are absent for other reasons you will be asked to provide evidence of the reason for the absence. For further information on your obligations in the event that you have missed an assessment, please talk to your LTS Hub.

If you know that you will be absent and want to seek permission in advance:

If you know that you will have to be absent from your studies because of a specific event, e.g. a hospital appointment or job interviews, you should use the online facility to seek permission for you to be absent.

Extended Absence/Interruption to studies:

If you are ill for an extended period of time and are unable to study adequately you may need to take an approved period of interruption from your studies - more information can be found [here](#).

Student Self-Reporting of Absence

(1) This facility should be used by you to notify the Learning and Teaching Hub of your unforeseen absence. You should use it to record your absence from teaching events and private study.

(2) The recording of absence via this facility will not result in any automatic extension to a submission deadline or granting of a delayed assessment. These are covered by a separate procedure and you will need to complete an Extenuating Circumstances Report Form, available at <http://www.uea.ac.uk/learningandteaching/students/forms>.

(3) Should you wish your reason for absence and any effect on assessed work to be taken into consideration by the Board of Examiners please complete the Extenuating Circumstances form at <http://www.uea.ac.uk/learningandteaching/documents/student/CircumstancesAffectingStudy> and/or discuss with your Personal Adviser

(4) Part Day absences should not be logged here. If you are on a Professional course and need to report absences of less than a day please notify your Hub: <http://www.uea.ac.uk/learningandteaching/hubs>.

(5) If you have long-term / on-going circumstances (e.g. medical) that may result in your intermittent absence, please notify your LTS Hub.

(6) Requests for authorised Leave of Absence (advance notice of absences e.g. family event, interview) should be made at <http://www.uea.ac.uk/learningandteaching/students/forms>.

Please select one of the following:

☐ I am unwell

☐ My child, or other dependant for whom I have a caring responsibility is unwell
